EDUCATION

Delhi Technological University	Aug 2024 – May 2028
Bachelor of Technology in Computer Science Engineering CGPA: 9.53	
Sri Krishna Public School, Najafgarh	2024
Class XII (CBSE) Percentage: 96.4%	
Sri Krishna Public School, Najafgarh	2022
Class X (CBSE) Percentage: 95.33%	

PROFESSIONAL EXPERIENCE

Flutter Developer Intern	Jan 2026 – Present
RayGlides Startup, DTU Innovation & Incubation Foundation (DTU IIF)	
- Engineered a cross-platform EV ride-booking application in Flutter, integrating Firebase Authentication and Google Maps for seamless user onboarding and navigation - Implemented live location tracking, animated vehicle markers, and dynamic route visualization using Google Polylines, enhancing real-time ride tracking accuracy - Developed a comprehensive ride lifecycle management system including a wallet balance feature and Razorpay payment gateway integration for secure transactions - Optimized backend API integration and built reusable Flutter components, ensuring a highly performant and scalable production-ready architecture	

PROJECTS

Oceo Flutter, Firebase, Custom Backend
- Developed a community safety and disaster information platform connecting coastal regions through real-time emergency alerts and verified local updates - Engineered an admin-controlled broadcast backend and integrated regional safety scores and live incident tracking - Incorporated real-time community chat and discussion systems using Firebase APIs to ensure robust communication
Buy Me A Chai Next.js, React, Node.js, Express.js, MongoDB, Razorpay
- Created a full-stack crowdfunding platform enabling seamless financial contributions to content creators - Implemented secure JWT authentication and integrated Razorpay for payment verification and processing - Designed intuitive creator dashboards and RESTful APIs, utilizing Tailwind CSS for a fully responsive user interface

TECHNICAL SKILLS

Languages: C++, C, Python, Dart, JavaScript
Frontend & Mobile: Flutter, React, Next.js, HTML, CSS, Tailwind CSS
Backend & Databases: Node.js, Express.js, REST APIs, MongoDB, Firebase Firestore, MySQL
AI / ML: TensorFlow, Scikit-learn, NumPy, Pandas
Core CS & Tools: Data Structures & Algorithms, OOP, OS, Computer Networks, DBMS, Git, GitHub, Postman

ACHIEVEMENTS

- Golden Pride Award for academic excellence; secured a 9.9 SGPA in the first semester
- Awarded golden pride scholarship for outstanding first-year academic performance
- Finalist in India Innovate Hackathon & 1X Hackathon Winner
